The Charlottenburg Collection

Experiencing different cultures through travel is one of my reasons for living, I enjoy the process of discovering roots previously unknown. Attempting to learn a language (and use it successfully!) challenges all of my senses. I've recently had the opportunity to travel to Berlin. This collection was inspired by the architecture of the Charlottenburg neighborhood, and the chronology of this historic city.

The Lake Collection

I love living in New York City.....there is a layered richness of everything here that is difficult for me to describe....however, each time I visit Chicago, where I was raised, seeing Lake Michigan takes my breath away, The Lake Collection with classic coupe shapes, and serene colors evoke the vastness of the horizon line and ever changing colors of the sky and water.

The Cabaret Collection

One of the things I enjoy about making functional ware is understanding how the item is going to be used....the most fun is collaborating with chefs, and designers. The Cabaret Collection was inspired by the items I created for Betony New York. Sensuous clean lines based on organic forms pared down to miniature functional sculptures.

The Signature Collection

It has been said the only thing constant is change. I was inspired to create the signature collection during a time of great change and upheaval....my studio lease had ended.....I was moving! But where and when? Simultaneously, the bubble burst on the economy.....how would I navigate? During this cycle, the status quo no longer existed, an intense desire to create order permeated my waking life. The collection is based on the cylinder, all sizes relating to one another in an methodical, organized fashion. The process of making something with this sense of structure created a base line of consistency, and contributed a feeling of calm resilience in the studio.

Artist Statement

As far back as I can remember, I've wanted to throw clay on the wheel.

My formal education trained me as a nurse, and the garment industry schooled me in business. It wasn't until I worked in a restaurant kitchen that I found the sense of adventure necessary for clay, and an entree into a production porcelain studio. There, I worked in exchange for studio space and learned by trial and error. My inspiration comes from a variety of places, ancient ceramics, my travels, classic design, and life in New York City. For the signature collection, primarily it was the desire for timeless simplicity and order.

Each piece is made of porcelain, which is microwave and dishwasher safe.

Please allow for variation in color, size and shape.
